

Telephone Directory of Metuchen, 1928

On file in the Metuchen-Edison Historical Society's Grimstead Room

The original directory is organized by last names. This transcribed version is organized by street address to help property owners identify the former uses or names of residents. Keep in mind that perhaps not *all* residents are listed, as not everyone would have had a telephone, and that there are likely some typographical errors both in the original and the transcription. Scans of the original are being reprinted serially in our newsletter, *Nannygoats*.

Transcribed and sorted by Tyreen A. Reuter, 2011-2012.
