

**The Metuchen-Edison Historical Society's newly released "Coloring Book of Metuchen Architecture," compiled from drawings of more than 40 local sites, is now available for sale.**

The Society hopes children of all ages will enjoy putting their own creative touches on these local sites, and in the process develop a greater appreciation for how these places make our area a very special place to grow up.

**Copies are available through the Society for \$6 each (plus \$2 shipping, if applicable), and are free with any new Family Membership. For more information, or to order your copy, contact Tyreen at 732-452-1381 or via email at [ayersallenhouse@msn.com](mailto:ayersallenhouse@msn.com).**
